# 7 day Vacation

You have just earned \$3000 for you and a friend (or family member) to go on a 7-day trip. You are going to use the PowerPoint template on the class website to showcase your planned trip. Customize and add colors and pictures to the template to make the assignment your own. The template is just to help you get started. Each PowerPoint must include pictures (not clipart) and all the information required. You will have two days to complete this assignment, so make sure that you are taking your time on this project.

Each divider page needs to be fun and decorated. Every other slide page has a picture minimum listed with the instructions in the presenter notes. All the instructions for each of the slides are typed into the presenter notes on the template.

Remember that the entire week should not exceed \$3000 including meals so plan accordingly. The cost is for two people. When you are done, email your PowerPoint to [kylee.pearson@nebo.edu](mailto:kylee.pearson@nebo.edu)

Slide/Title	Points Possible	Score	Slide/Title	Points Possible	Score
Slide 1 – Title	5		Slide 11 – Lodging	10
