

Name: _____

Period: _____

Applied Math and Culinary Arts

Create a PowerPoint that illustrates your knowledge of one of the following topics:

- Measurements
- Conversion
- Quantity Modification
- Costing of Ingredients
- Menu Pricing

Include the following slides:

- Project Identification Page
- Planning Process
- Information on your topic (3-5 slides)

Examples can be found at: <http://tinyurl.com/j58hk2s> or on the class website.

e-mail your power point to kylee.pearson@nebo.edu

	Amazing	Good	Needs Work
Project Identification Page	Includes Title, Name, and Period (10 points)	Missing 1-2 aspects (5 points)	Missing (0 points)
Planning Process	Includes all aspects of the planning process worksheet. Shows a thoughtful plan with realistic goals and expectations. (50 points)	Plan is not well thought out or is missing 1-2 aspects. It is limited and vague. It is not realistic or achievable. (35 points)	Contains 2 or less aspects. Shows very little understanding of the planning process and is incomplete. (20 points)
Information	Includes: 3-5 slides that clearly explain the concept you are showing. Neat, pictures, examples, and wording appropriate and shows application of concept. (20 points per slide=100 points)	Includes less than 3 slides. Vague, lacking pictures or examples. (65 points)	Includes less than 2 slides. Little to no understanding of the topic. (35 points)
Presentation/Neatness	All information is typed, clearly defined and easy to read. Creativity is evident in PowerPoint when presenting information. (20 points)	Some information is typed and some is handwritten. Lacking in creativity and uniqueness. (10 points)	Information is handwritten. No creativity. (5 points)
